intAct BATTERY - POWER

FOR HEAVY LOADS, INCLUDING ABS

Delivers 30% more starting power for modern motorcycles with many electrical consumers and covers consumption peaks. Low self-discharge, bike starts reliably even after up to 3 months. Our recommendation if many consumers are installed or the motorcycle is rarely used.

- **Even more cycle-resistant** than Bike-Power AGM and Bike-Power SLA of the same box size.
- **Low self-discharge.** For seasonal use.
- **Very high vibration-resistance.** Electrolyte immobilized by gel-additive.
- **30% more starting power** than a conventional battery of the same box size. For motorcycles with many consumers, including ABS.
- **Sealed maintenance-free** battery. Refilling is neither possible nor necessary.
- Wet charged. **Ready to use.**
