

# Starter Batteries

**PREMIUM** POWER

## intAct Premium-Power

Maintenance-free calcium battery (Ca/Ca) | wet charged

**intAct**  
BATTERY - POWER

## 30% EXTRA STARTING POWER

More suitable for highly equipped vehicles with many electrical consumers and in intensive city traffic. With minimal self-discharge, particularly safe and temperature resistant. Our recommendation for vehicles with a lot of equipment, especially if short distances are driven frequently.

- 30% more cranking power than standard starter battery with the same case size.
- » **Fast charging. Up to 1.5 times shorter charging time** due to faster current consumption than standard starter batteries of the same box size.
- » **Double lid for increased leakage protection and vapour condensation** (gaseous electrolyte condenses in the labyrinth lid and remains in the circuit).
- » 2 versions: For **passenger cars (also Asia models)** and for **trucks**.
- » **Premium-Power Truck vibration resistant V4** (HVR = High Vibration Resistance).

Artnum.	PP78MF
Japan-Code	keine
Volt	12V
Capacity	78 AH (c20)
CCR - 18°C (EN)	760 A (EN)
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28 +/- 0,01 Kg/l (25° C)
Size (LxWxH)	278 x 175 x 190 mm
Weight	18 kg
Pos. of Terminal	0

Technology	Maintenance-free calcium battery (Ca/Ca)   wet charged
------------	--

Terminal	1
----------	---

Base plate	B13
